

The Working Together Team Invites You to

A FREE *Virtual Workshop*

'Exploring Autism, Social Communication Differences

The first step when providing any effective support is to 'know' and 'understand' the nature of any differences.

This is the focus of the session and the WTT are delighted to be able to offer this opportunity to parents who may find it useful.

You may be new to a diagnosis for your child, feel you have never really understood what it means or you may suspect your child displays some common traits.

Whatever your current situation you are most welcome to join us

Date: 23rd September 2020 via Teams. If you'd like to book a place please follow the link below. You will then receive an email confirming your booking and a link for the event.
